PROFESSIONAL EXPERIENCE

Senior UX Designer

10/2014 – 12/2016

Meridian Knowledge Solutions, Inc., Reston, VA

- Incorporates visual and interactive designs within existing application ecosystem to transform wireframes into functional prototypes.
- Collaborates in the creation, execution, and analysis of application tests, allowing user feedback to inform design pivots.
- Works within team to refine client requirements and identify areas for improved user experience.
- Replaced legacy HTML and CSS with a customized Bootstrap solution, allowing easier theming and reducing client implementation costs.
- Established UI standards and created pattern library to decrease development time.
- Collaborates with developers to ensure design, accessibility, and frontend coding standards are maintained.
- Consults with clients for the creation of application themes and custom coding components to match individual corporate branding.
- Assists with the implementation and deployment of mobile applications for both iOS and Android.

Senior UI/UX Designer & Developer

5/2014 – 10/2014

hCentive, Inc., Reston, VA

- Served as lead UI/UX designer for premier healthcare web application, establishing frontend coding standards and style guides to increase maintainability of product/code base.
- Implemented federal 508 requirements into core healthcare product.
- Resolved UX issues with application task flow via frontend development and coordination with backend developers.

Senior Visual & Interaction Designer

3/2014 – 5/2014

LongView International, Inc., Reston, VA

- Served as lead UI/UX designer for a web application redesign to help Veterans Affairs (VA) businesses secure government contracts.
- Developed UX strategy alongside project lead.

PROFESSIONAL EXPERIENCE (CONTINUED)

Visual & Interaction Designer 8/2009 – 2/2014

Applied Security, Inc., Reston, VA

- Developed logos and branding for a premiere product suite, ensuring branding consistency across all UI designs, marketing materials, and end-user documentation.
- Performed user interviews to revitalize existing Mobile and Web applications through feature analysis and wireframing.
- Supplied design direction to developers and quality assurance team members to ensure a cohesive brand and user experience.
- Worked closely with developers providing image assets and frontend coding, keeping forward compatibility in mind.

Web Designer 11/2008 – 8/2009

Qnexis, Inc., Herndon, VA

- Served as design, architecture, usability, and accessibility consultant for all Web related projects.
- Lead developer/co-designer for the redesign and implementation of the U.S. Navy Judge Advocate General's Corps website:
 - Identified information architecture issues and developed a hand-coded solution that condensed over 280 Web pages to less than 110, resulting in increased access to vital naval legal services, documents and contact information.

Senior Designer & Developer 6/2004 – 11/2008

Howard Consulting Group, Inc., Washington, DC

- Managed the company's Web design, development, and print design efforts.
- Served as Creative Director for a nationwide speakers' forum:
 - Improved the design, security, and data collection for the program, which resulted in a 30% increase in RSVP registration.
 - Responsible for all Web maintenance for the program, including the publishing of new Web content, managing and securing current and new domains, and email marketing.
 - Designed event invitations, signage, program booklets, and presentation slides to promote program events, reinforce the brand, and enhance attendees' experience.
